PressACR®

PRESS

FOR REFRIGERATION SYSTEMS

FITTINGS AND TOOLS

Drive your business forward with NIBCO® PressACR® fittings for air conditioning and refrigeration systems.

NIBCO's expertise in press-to-connect technology and copper fittings ensures you will save valuable time on job sites and allow you to press forward.

Why Use Press?

- Lower total installed costs for refrigeration systems
- Systems can be dry-fit before crimping
- Makes secure, consistent and leak-proof connections a smooth, efficient process
- Faster installation time means greater productivity on the job site
- UL 207 recognized to 700 PSI

Press fittings install easily for a perfect fit every time.

Flame-free installations are safer – great for occupied spaces.

Compatible with a wide range of refrigerants and lubricants.

PRESS

FOR REFRIGERATION SYSTEMS

Engineered specifically to install our PressACR® products, NIBCO PressACR tools are lightweight, ergonomic, convert easily to electric power, and include LED lights to illuminate work areas.

Backed by more than 115 years of experience, our unparalleled customer service ensures you'll have the products and tools you need – when you need them – saving you time and money.

NIBCO PressACR® will increase your productivity and profitability.

FITTINGS AND TOOLS

Performance

- Flame-free installation is safer than soldering or brazing
- Perfect for system repair
- Consistent joint quality means fewer callbacks and reliable performance

NIBCO Advantage

- Fittings manufactured in the USA from 100% globally-sourced pure copper
- Size range is 1/4" through 1 3/8"
- Complete line of tool and jaws
- Exclusive AC adapter is convenient for prefabrication, reducing down time
- Features a gray HNBR seal for refrigeration applications
- Unique patent pending fitting design and crimp pattern for use in high pressure systems
- Engineered, designed and manufactured in the USA
